**WARRANTY ON COMPRESSOR TECUMSEH (France) — 2 YEARS !!!**

Combination of the working table and refrigerator box allows to significantly decrease an occupied space of the kitchen (section). It is possible to manufacture tables with granite countertops.

Such tables have some obvious advantages:

- almost ageless granite - countertops can be manufactured in various color compositions
- is perfect for working with dough - neutral radiation background of granite countertop
- are permitted for contact with products. - entirely manufactured of stainless steel;
- the biggest inside effective volume in its class; - dimensional back flange with height 50 mm;
- compressor (France); - compressor (France) with full two year guarantee;
- components manufactured by EU countries; - digital thermostat; - safe refrigerant R134A;
- automatic defrost; - adjustable telescopic struts (stainless steel).

Can be equipped with wheels to simplify cleaning of the room and maintenance.

### Seafood display cases (counters)

Refrigerated display cases for fish on ice are used for presentation, maintenance of optimum storage temperature and seafood demonstration. These refrigerated display cases are installed in stores and public catering enterprises. Such equipment is fitted with inclined open bath where manufactured ice is allocated. Fresh fish and different seafood products are spread on ice directly. This enables to keep products fresh for a long time and take care of its attractiveness.
